WARRANT FOR TOWN MEETING
STATE OF NEW HAMPSHIRE

GRAFTON S. S.

TOWN OF ENFIELD

To the inhabitants of the Town of Enfield qualified to vote in Town Affairs.

You are hereby notified to meet in the Enfield Elementary School in said Town of Enfield on the ninth day of March next at ten o'clock in the forenoon, to act upon the following subjects:

Polls will open at ten A. M. and will not be closed before eight-thirty P. M. Articles in Warrant will be taken up beginning at seven P.M.

ARTICLE 1. To choose by ballot to serve for three years, one Selectman, one Library Trustee, one Trustee of Trust Funds, one Fire Ward, one member of the Recreation Commission; to serve for two years, one Auditor; to serve for one year, one Tax Collector, one Overseer of Public Welfare, one Highway Agent and one Auditor.

ARTICLE 2. To see if the Town will vote to authorize the Selectmen to borrow money in anticipation of taxes, the sums so borrowed to be repaid before the end of the fiscal year in which the debt was incurred.

ARTICLE 3. To see if the Town will vote to authorize the Selectmen to sell or lease any or all such parcels of real estate acquired by the Town through Tax Collectors deed for non-payment of taxes, or any or all parcels not in public use; and to authorize the Board of Selectmen to execute and deliver, in the name of the Town, suitable deeds or leases of such real estate, upon such terms and conditions as the Selectmen may decide.

ARTICLE 4. To see if the Town will vote that if the purpose or objects, hereinafter designated, for which appropriations for the year 1971 may have been made, have not been fully accomplished during the fiscal year, the funds so appropriated or unexpended on the unfinished portion of such object, shall be placed in a Capital Reserve Fund, dedicated to the purpose or object of its conception, until such time as the Board of Selectmen, acting as Agents of the Town shall have the opportunity or occasion for the fulfilling or completion of the purpose or objects for which said appropriation was created.

The specially designated purposes are as follows: that net earnings of town owned equipment derived from highway appropriations, also Police Cruiser and Civil Defense appropriations, if any.

ARTICLE 5. To see if the Town will vote to raise the sum of \$1,328.44 for Town Road Aid, and to receive the sum of \$8,856.27 from the State.

ARTICLE 6. To see if the Town will vote to authorize the Board of Selectmen to purchase the land and building on the northerly side of Main Street adjacent to the Copeland Block and known as the Carleton Block, so called, for the purpose of removing the old building and cleaning up the area, at a cost not to exceed \$5,000.00, such amount to be withdrawn from the Municipal Building Fund.

ARTICLE 7. To see if the Town will vote to raise and appropriate the sum of \$3,000, such sum to be set aside in Capital Reserve in a Trust Fund to be known as the Reappraisal Fund in anticipation of the necessity for a complete property reappraisal by State Tax Commission appraisers as soon as such a reappraisal can be obtained.

ARTICLE 8. To see if the Town will vote to adopt the budget and raise and appropriate the various sums recommended and posted by the Budget Committee, or act thereon.

ARTICLE 9. To see if the Town will vote to accept and maintain the following described parcel of land as a Town Highway, subject to the approval of the Board of Selectmen so far as construction is concerned and to the approval of the New Hampshire State Highway Department where connection with Route 4A is established.

Description: Beginning at an iron pipe set in the Easterly line of the 4th New Hampshire Turnpike also known as New Hampshire State Highway, Route 4-A. This pipe also marking the Southwesterly corner of a parcel of land of Roger K. Warren and Deborah H. Warren.

Thence North 59 degrees 30 minutes East along the Southerly line of said Warren land and along the Southerly line of land owned by Robert and Elizabeth Daniels and across a right-of-way, a distance of 540 feet to an iron pipe.

Thence South 03 degrees 30 minutes West along the Westerly line of Patricia McLarnon, 52 feet to an iron pipe.

Thence South 59 degrees 30 minutes West along other land of Roger and Deborah Warren, a distance of 536 feet to an iron pipe in the Easterly line of the 4th New Hampshire Turnpike.

Thence North 29 degrees 55 minutes East along the edge of the Turnpike 50 feet to the point of beginning.

All distances are to be more or less and all bearings are Magnetic 1970.

Meaning herewith to describe a parcel of land nearly rectangular in shape having a length of 540 feet and a width of 50 feet.

Such road to be known as Sloan Road.

ARTICLE 10. To see if the Town will vote to authorize the Recreation Commission to use up to \$600.00 of its funds with approval of the Board of Selectmen to hire a Real Estate appraiser to secure an appraisal on the property commonly called "The Crescent Beach Motor Inn", situated at the Head of Mascoma Lake, in order that the Town may later consider the possibility of acquiring this property for use as a public Beach and Recreation area, using matching Federal Funds now available.

ARTICLE 11. By request of the Budget Committee: To see if the Town will vote to instruct the Board of Selectmen to bill ambulance charges to all recipients of this service, except where such service charges may cause hardship. Written record of all ambulance calls to be furnished by ambulance drivers to the Board of Selectmen by the tenth (10th) of each calendar month. All net earnings of the ambulance to be placed in a trust fund dedicated to the maintenance or replacement of the ambulance when needed.

ARTICLE 12. Pursuant to a petition of ten or more legal voters:

"To see if the Town will vote to endorse Upper Valley Health Care and its efforts to improve the delivery of primary health services to people of the Upper Valley: and further, to authorize the Moderator to appoint two residents to represent the Town on the Executive Committee of Upper Valley Health Care."

ARTICLE 13. To hear the reports of agents, auditors, committees or any other officers heretofore chosen and pass any vote relating thereto.

ENFIELD PUBLIC LIBRARY
REPORT FOR 1970

As librarian I submit the following report for 1970.

In April Mrs. Nellie Pierce who had been librarian for over thirty years retired. This was an immeasurable loss to the library as she had given of her great talent and time to its growth and development. Mrs. Mary Allen who had been assistant for two and a half years became librarian and Mrs. Marjorie Carr who is continuing her summer library courses became assistant. In the late summer Mrs. Marguerite Lovering joined the staff part time. Although we cannot fill Mrs. Pierce's place we have tried hard and accomplished many things.

In the spring Mr. Dunn, the chairman of our Trustees, took a load of our duplicate books and a set of World Book encyclopedias which we had replaced with new ones, to the Hill, N.H. library because it had been burned out.

Approximately 350 new "hard-covered" books have been purchased and 100 added as gifts. Besides these we've received over 150 excellent "paperbacks". These have been catalogued as an entirely new section and are being widely used.

We have received three calls from the state bookmobile and have borrowed approximately 1175 books in all categories. In addition to these, individual requests have been filled directly from Concord.

This summer many of our Lake friends and/or visitors "found" the library and our circulation was enlarged thereby. Our files show 7718 books loaned by us in 1970-an increase of 1359 over 1969.

A new donation of outstanding records has been received from Columbia. These will be loaned as the others have been on the same basis as books.

Once more we belong to the State Co-operative Program and receive \$100 a year toward reference books. We are also enrolled in the Inter-Library Loan Group and have

the N.H. Statewide Library Cards for patrons in good standing here. Further details will be explained on request. By these means we keep in good standing in all ways with the state and are entitled to all its benefits.

The children have not been neglected. Various classes from our elementary school have had educational trips to visit the library. Here they were shown the different sections, how to borrow books, something about library etiquette, and have listened to stories and records.

During the summer we had an "Apple Tree" reading club with forty readers enrolled. Their tree posters grew from blossoms to fruit by reading books and telling the story to us. One child read over 40 books.

Free movies have been shown to them during the fall and winter with an attendance ranging from 20 to 45.

Before Christmas, on December 19, movies were shown followed by a party consisting of a Jack Horner pie containing a gift for each and a candy cane for everyone.

Notable additions or changes include the following:- A twenty-volume set of 1970 children's encyclopedia of science was purchased.

A small room at the back of study corner was opened and we needed it.

The librarian's work corner was brought up-to-date. A much needed new block of drawers for the file cards was added to our "bank".

A new 3-M copier was purchased.

A small much needed bookcase was donated by Mr. and Mrs. Lovering.

Dark curtains have been installed in the legion room for use during the film presentations.

Our paperback section is organized and being widely used.

A complete list of January "best sellers" is on the 7-book shelf.

In closing I'd like to say:- a deep "thank you" to the MANY, from both in-town and visitors, who have been

so kind and helpful in the various donations of all kinds of books--large beautifully pictured ones, small historical ones, mysteries, westerns, good fiction, children's books etc. The length of the list prohibits printing all here. We appreciate the care and thoughtfulness of these readers. A thank you to our Selectmen and their secretary Mrs. Haarala, for their understanding and help in our problems.

To you readers who by your visits and words of encouragement have helped us to know your needs and likes, and worked for the betterment of your library. And lastly, a word of thanks to your library trustees and especially Mr. Dunn, the chairman. They have spent long hours every month helping to make plans for our growth and development. In addition to the other hours Mr. Dunn has given at least one Saturday morning each month to the children by operating the movie projector for the films.

So, by the co-operation of so many we have fulfilled the saying "IN UNION THERE IS STRENGTH".

Mary L. Allen,
Librarian

REPORT OF THE RECREATION COMMISSION

Enfield is an unique, Upper Valley community for within her township lies all the ingredients for family recreation and to promote programs that will take advantage of these resources to bring the family together to share recreational activities is the motivation of the Enfield Recreation Commission. In providing a program that will encourage all to participate, we feel will do much to promote love, harmony and friendship within the community.

Programs sponsored this year to fulfill our theme were the continued operation of Shakoma Beach and Picnic area for all citizens of the community. For children there was an expanded summertime program under the direction of Mr. David Walker in supervised playground games and weekly activities. Included within this were Arts and Crafts under the supervision of Miss Eileen Maloy and supervised swimming instruction was offered for the first time this year to teach our children water safety.

At Christmas time a community party was held attended by 450 children and adults and also a skating rink has been established and skiing at LaSalette Seminary continues on winter Sundays.

A survey has been conducted in local schools to determine the recreational interests of the children and parents and citizens are also asked to include themselves by filling out forms where found in the community. The information collected will be used to further expand our program. This coming year we would like to undertake the development of a Capital Improvement Program that could include any of the following: Skating Rink, Basketball and/or Tennis Court, Recreation Area for citizens of Enfield Center if a suitable site can be located.

The Commission wishes to thank LaSalette Seminary for the use of their summer and winter facilities, our volunteer fire department for flooding the rink and Dartmouth College for the donation of playground equipment.

The entire Commission wishes to thank the citizens of Enfield for their continued support.

REPORT OF THE PLANNING BOARD

The planning board met on a regular basis during 1970.

Mr. Charles McKinney, Executive Director of the Upper Valley Planning and Development, attended many of our meetings offering briefings on current council activities. A representative of the Upper Valley Planning and Development Council prepared an inventory of Enfield maps. These will be filed to aid in future area planning.

The board also entered preliminary discussions with the Enfield Recreation Board regarding the possibility of a town owned beach facility. We hope this will be a reality in the future.

The remainder of our meetings were spent in thoroughly reviewing proposed area planning ordinances. These should be presented for voter consideration shortly.

Respectfully submitted,
Michael Alafat, Chairman
Marjorie Carr, Sec'y.
Forrest Aldrich
William Tucker
William Maloy, Selectman

CERTIFICATE OF AUDIT

We have examined the records of the Board of Selectmen, Town Clerk, Town Treasurer, Tax Collector, Overseer of Welfare, Trustee of Trust Funds, and found them to be correct as of December 31, 1970.

John P. Carr
Mary K. Hill
Auditors

REPORT OF THE FOREST FIRE WARDEN & DISTRICT CHIEF

During this past year, the public has shown a great deal of cooperation in the prevention of fires. We wish to express our thanks for a job well done.

Your forest fire warden's job would be easier if everyone understood the State laws that govern the kindling of outdoor fires, a synopsis of these laws follow.

Fire Permits

A fire permit is needed for all outdoor fires in or near woodland anytime the ground is not covered with snow. This includes household waste burning, even if in an incinerator, grass burning, garden trash as well as brush burning (SUCH BURNING IS RESTRICTED BY REGULATION TO BE PRIOR TO 9:00 A.M. and AFTER 5:00 P.M.)

An Air Pollution regulation forbids the burning of household waste in towns where such rubbish is collected by the town.

Exceptions

Commercial or industrial burning is allowed under normal conditions with permission of the District Fire Chief and a permit from the Fire Warden.

Camp or cooking fires are allowed on your own property with permission of the Fire Warden. On another's property with written permission of the landowner and permission of the Fire Warden. The Warden can forbid such fires if in a hazardous area. Permits for cooking fires in the White Mountain National Forest can be obtained from the Laconia Office or at the Ranger Stations. Permits are not required in public camp or picnic grounds where fireplaces have been built for this purpose.

REMEMBER! ONLY YOU AND I CAN PREVENT FOREST FIRES

Fires reported -	State	484 fires	244 acres
	District	29	13 1/2
	Town	2	1.5

Gerald S. Gross
District Chief

Donald A. Crate
Forest Fire Warden

UPPER VALLEY PLANNING AND DEVELOPMENT COUNCIL

Highlights - 1970

The regional planning program officially began in April. Although work was begun by the staff in April, consultant planning services were withheld until a contract was executed with the Vermont Central Planning office in December.

Regional studies in this year's work program are scheduled for completion by the end of March. Regional planning studies now being completed include an economic base and population study; a land use and transportation study; an inventory study of water, sewer and open space; a long-range regional guide plan study and a three to five year work program. These studies are being prepared in conformance with Federal planning requirements; a prerequisite for many of the Federal grants and loans for public improvements and facilities.

During the year, a Solid Waste Technical Advisory Committee was established to define the scope of the solid waste problem in each municipality and to formulate a solid waste management program. Federal and state officials were consulted, technical experts were brought in to discuss successful programs elsewhere, and a detailed work program with an estimated cost of \$24,000 was formulated. An application was then prepared and filed with the Bureau of Solid Waste Management for a planning assistance grant authorized under the new Resource Recovery Act. Grant approval is expected during the second quarter of 1971.

Depressed business conditions, spiraling inflation, and high interest rates, coupled with a tight housing market have restricted commercial and industrial development activity in the Upper Valley. As evidenced by the number of market investigations, however, interest remains high in a variety of commercial and residential developments. During the year, a considerable number of in-

formation requests were processed and assistance was provided to several economic prospects and to a number of local businesses through the Service Corps of Retired Executives (SCORE).

The Coming Year

The regional planning budget proposed for 1971 is \$60,000. Two-thirds or \$40,000 of this budget is based on the receipt of a regional "701" planning assistance grant.

The regional planning work program for the coming year will include a major long-range sewerage study, a study to prepare or update community land use plans, and a technical services program to assist communities with their land use regulations.

The Council will also, during the coming year, continue to coordinate development activity, serve as an information clearinghouse, assist economic prospects and support the activities of SCORE. In addition, the Council will provide limited support for the operational needs of Upper Valley Health Care.

ENFIELD, N.H. TOWN MEETING
MARCH 10, 1970

ARTICLE 1. The following officers were elected by

Non-partisan Ballot:

Selectman for Three Years - Arthur W. Blain

Revised Statutes Annotated.

ARTICLE 14. Pass over.

ARTICLE 15. Resolution adopted - Mr. Henry A. Laramie

RECOMMENDATIONS ADOPTED - BUILDING SITE
COMMITTEE

#1. That the voters of the Town of Enfield
direct the Building Site Committee, together
with the Selectmen to take legal and proper
option on a site or sites at their joint
discretion.

#2. That the Selectmen instruct the Trustees
of Trust Funds to place all moneys now col-
lected into the highest interest yield poten-
tial available because of newer banking trends
Adopted.

#3. Adopted as amended:
That the Selectmen also be instructed to
appoint a Building Committee and that the
three recommendations be taken up separately.

The above is not a complete copy of the minutes of the
Enfield, New Hampshire Town Meeting, March 10, 1970, but
a record of the actual vote.

Bettina B. Adams
Town Clerk

REPORT OF ENFIELD SEWER STUDY COMMITTEE

At the March 1970 Enfield Town Meeting, Article 7 was approved by the voters, instructing the selectmen to appoint a sewer Study Committee to meet with officials of the city of Lebanon to form an agreement whereby Lebanon would intercept, convey and treat sewage from the Enfield sewage collection system. The Committee was appointed promptly after Town Meeting and proceeded with the guidance and approval of the selectmen to broaden their work into the areas of cost and revision of the original sewage disposal plan as well as negotiations with the city of Lebanon.

The regional concept for solution of Enfield's sewage disposal problems came about when on September 1, 1967 the Mascoma River was reclassified by the General Court to Class A, upstream of the Lebanon Water Works, as a result of a recommendation by the N.H. Water Supply and Pollution Control Commission. This classification stipulates that no wastes, treated or untreated, may be discharged into Mascoma Lake or the Mascoma River upstream of the Lebanon Water Works. The proposed system consists of a sewage collection system to serve the Town of Enfield by conveying waste waters to the neighboring community of Lebanon for treatment in a regional sewage treatment plant to be constructed at the confluence of the Mascoma and Connecticut Rivers in West Lebanon. The proposed collection system consists of street and lateral sewers, trunk sewers and intercepting sewers as well as a main pumping station and force main.

Probably the greatest natural resource within the Town of Enfield is Mascoma Lake, extending more than four miles in length and having an average width of about one-half mile; its shoreline dotted with numerous cottages, motels, year-round residences, and more recently, mobile home parks and also a camping area. The increasing pollutional load from many inadequate disposal systems around the lake has, when combined with other untreated

wastes from Enfield Village, resulted in a continually deteriorating quality of water in Mascoma Lake, which not only detracts from the aesthetic value of the lake but also makes more difficult the treatment of Mascoma River water for the City of Lebanon's municipal water supply.

On July 8, 1968, the N.H. Water Supply and Pollution Control Commission issued an order to the Town of Enfield to cease and abate pollution of the Mascoma River watershed by July 7, 1970. This order was extended for 1 year in July 1970. At the annual town meeting held in March of 1970, citizens voted to have the Town of Enfield rather than Enfield Village Precinct accept the responsibility for the construction of necessary works to abate pollution of the Mascoma River watershed.

Although the works necessary to collect the sewage in Enfield and convey it to Lebanon for treatment are eligible to receive up to 95% reimbursement from the State and Federal Governments, the local collection works represent a substantial expenditure for such a small community with a history of low average annual income in an economically depressed area.

The alternatives to the proposed program seem prohibitive or impossible. A spray-irrigation system would not be allowed by the State. Reclassification of the Mascoma watershed and lake allowing the construction of our own treatment plant is impossible where the water involved is also a source of municipal water supply. Individual sewage systems for industry or individuals would be too costly or impossible in many cases.

On May 7, 1970 the Sewer Study Committee, Enfield Board of Selectmen, Attorney Robert Jones and Mr. Charles Fuller of Camp, Dresser and McKee, met with the Lebanon City Council and Manager Boehner. We proposed the following to them in order for us to determine more complete cost details and also to suggest changes in existing sewerage construction plans in Enfield and Lebanon.

1. That the City of Lebanon accept the responsibility of constructing necessary sewage collection system to the Enfield-Lebanon town lines on both sides of Mascoma Lake. This obviously would result in the following:

- (a) A smaller Bond Issue for Enfield which could result in the present plan being more economically acceptable;
- (b) Lebanon would then be servicing approximately 200 people at the Northwest, North and Northeast ends of Mascoma Lake who are actually residents of Lebanon;
- (c) Lebanon would then be maintaining a sewer system within the limits of Lebanon and collecting sewerage service fees from residences of Lebanon rather than having the unusual situation of Enfield attempting to do this.

2. With present orders against Enfield to cease and abate pollution of the Mascoma River watershed, we assume that the Commission would intend this to apply also to that portion of the watershed in Lebanon. It follows that some degree of urgency exists and we request that the City of Lebanon reconsider their present priority of sewerage construction phases with the possibility of carrying suggestion 1 above, in order to tie into the construction timing of Enfield's sewerage construction system.

3. Negotiations should commence immediately between our Sewer Study Committee and the City of Lebanon to provide a basis for determining costs chargeable to Enfield by Lebanon for conveyance and treatment of its sewage. It is reasonable to expect that part of the cost should be based upon gallons conveyed and treated. We also feel that Lebanon should place a value on savings to them in treatment of their municipal water supply which to some degree should be reflected in their sewage treatment charges to Enfield. We further believe that Lebanon and Enfield should consider the 5% additional Federal funding they will be receiving on eligible portions of their construction programs. We are very anxious to follow the plan which would result in conveying and treating our sewage in Lebanon if it is at all economically feasible.

The result of our meeting with Lebanon was inclusive. We learned that Lebanon had several phases of construction planned, none of which included construction toward Enfield. We also learned that Lebanon did not have detailed plans and specifications from their Engineering firm, Metcalf and Eddy. However, they expected them in 8 weeks. We agreed that Lebanon and Enfield would be in a better position to negotiate after the engineering reports were received. We have vigorously attempted to obtain the reports from Mr. Boehner and as of the date of this report (January 26, 1971) Lebanon does not have them, but now expects to receive them in one to two weeks.

The original sewer study of 1967 covered only the Enfield Village Precinct whereas at present the Town of Enfield has assumed the responsibility of a sewage disposal plan. Therefore, the Committee plans to expand the original plan to take in more users and to relieve the areas of pollution most urgently needing action. The original plan called for running the main collection pipe from Shaker Bridge along the B & M railroad track bed to Bank Street in Lebanon. The Committee is recommending that the main collection pipe be relocated at Shaker Bridge to cross the bridge and follow the low water level lake bed to the dam at the northern end, with a spur pipe returning along the easterly side of the lake to the Enfield-Lebanon Town line. We also recommend that a preliminary study be made to extend the pipe from the west side of Shaker Bridge, southerly, to Enfield Center and the head of Mascoma Lake. We believe that these areas should have priority over other areas in Enfield not included in the initial construction phase.

The revisions outlined above (not including the Enfield Center-head of lake preliminary study) would increase Enfield's share of initial estimated construction costs by \$9000. and the estimated annual operating cost by \$1000. We also have learned that our estimated initial construction cost will be higher due to Lebanon

constructing a secondary treatment plant which was not considered in our original plan. Another factor pertaining to cost is that we have already filed an application for \$115,000. grant under PL-89-240, Consolidated Farmers Home Administration Act of 1961. If this grant is realized, payment will be made to us after 50% of construction has been accomplished. We have also applied for a grant of \$100,000. from the New England Regional Commission. This would be in addition to other Federal and State aid resulting in reducing the Town's share of the cost by nearly 2/3. We have studied various methods and combinations of tax assessment to pay for the construction and maintenance, but are unable to develop any firm results due to lack of data which we are still collecting. It is the consensus of the Committee at the present time that a portion of the construction cost be borne by all taxpayers of Enfield, the balance of construction costs and annual maintenance costs borne by the sewerage system users. As more data is made available to us, we will prepare estimated annual costs to general taxpayers and sewerage system users for dissemination to the public. It is our aim to develop accurate estimated costs and present them to the public as a matter of information along with our recommendations of acceptance or rejection. This committee will not recommend any program that is considered to be economically unfeasible.

At a recent meeting with Mr. Clarence Metcalf of N.H. Water Supply and Pollution Control, we were advised of pending legislation in Concord which could drastically affect our project. A Bill has been filed which would result in the State of N.H. paying 50% of construction costs in comparison with 40% presently being allowed. This would mean that localities would not pay anything on main collection, conveyance and treatment systems. It would also result in the State being in a position to establish priorities of construction, be responsible for construction design, construction supervision

and supervise maintenance of lines and operation of treatment plants. The Committee is also concerned with the status of our local industry. Permanent closing of our textile plant would vastly reduce the size of Enfield's sewerage Collection System. This could result in a change in our present plans to convey sewage to West Lebanon for treatment. Considering these two uncertainties, we believe it advisable to proceed cautiously during the next few months.

The Enfield Sewer Study Committee has had strong support in their work from the full board of Selectmen who have attended every meeting. We have had invaluable assistance from Mr. Charles Fuller of Camp, Dresser & McKee, Mr. Clarence Metcalf of the N.H. Water Supply and Pollution Control, Mr. Robert Jones, our legal counsel, and our able secretary, Mrs. Deborah Warren.

We were also extremely fortunate to have two Dartmouth Graduate Students Messrs. Ted Groves and Glen Kendall whose research and advice will be invaluable in negotiating costs and determining taxes. We will issue reports to the citizens of the area periodically as we develop information of importance to keep you informed of our progress.

MASCOMA AREA HEALTH COUNCIL

The Mascoma Area Health Council, a non-profit visiting nurse association, covering the towns of Grafton, Orange, Canaan and Enfield is now in its second year of operation. Ellen Williams, R.N., the pioneer of our organization, resigned in November to spend more time with her family. Gertrude Clark, R.N. who has been with us almost since the beginning is now taking Ellen's place. During the summer the Council was fortunate to have Thelma (Webster) Smith's professional services while Ellen was on leave. Mrs. Smith left in the Fall to take a full time position and Carolyn Shattuck, R.N. of Hanover was hired. The two nurses, Trudy and Cory work 40 hours a week from 8 A.M. to 4 P.M. having the central office in the M.V.R.H.S. with their own private phone (632-7234). By sharing the work load these two part-time nurses give the towns the equivalent of one full time nurse. One nurse is funded by the towns and the other through a State Grant.

During the past year the nurses made approximately 1374 visits to patients in our surrounding towns. These visits include the new mother, well child or infant, mentally disturbed patient, cancer patient, handicapped patient, diabetic patient and many health promotion visits. During the Spring a series of immunization clinics was held in Enfield and in the Fall in Canaan for all the pre-school children of the towns covered. The Council is now planning a vision and hearing clinic for pre-school children (4-6) in the Spring and also more immunization clinics.

The nurses are involved in many things as well as visiting patients. They are willing to do as much as they are professionally able to help our small community and its citizens.
